

WATER WELL TESTING

GCGCD is coordinating and scheduling the testing of water wells in Goliad County to establish a baseline of water quality. If you are interested in having your well tested, please contact our office.

Samples collected are unfiltered and are tested for the following:

CHLORIDE

NITRITE/NITRATE

SULFATE

TOTAL DISSOLVED SOLIDS

ARSENIC

IRON

SELENIUM

RADIONUCLIDES (URANIUM, GROSS ALPHA, RADIUM 226, RADON 222)

pH

TEMPERATURE

CONDUCTIVITY

The cost of testing a well is approximately \$425 - \$450, and payment is due upon receipt of the test results. Test results are available five to six weeks from the date that the samples are collected.
